

# SCHOOLPOOL

Software and consulting services for a carpool program intended for an elementary or high school

## WHAT IS A SCHOOLPOOL?

A schoolpool is a carpooling program entirely dedicated to an educational institution with students under 16 years old. Only parents of these students can access the program in order to plan a carpool with other parents to go to school.

## A TURNKEY SOLUTION

CarpoolingNetwork.com puts his tools, expertise and experience available to its clients in order to implement and effectively manage a carpool program. The turnkey solution allows an organization to benefit from an effective carpool program, while allowing minimal time in human resource.

### A STATE-OF-THE-ART CARPOOL SOFTWARE

---

- ➔ **Branded carpool website**  
A branded carpool website is designed to the image of the organization while the software and its features are integrated to it.
- ➔ **Software that allows automatic matching**  
Simple and automated, the software allows users to find carpoolers with a similar itinerary for daily commute, business travel or one time trip.
- ➔ **Secure program in a closed network**  
Through a real time certification process, only parents of students have access to the carpool program.
- ➔ **Confidentiality**  
No personal information about a child or parent is visible.
- ➔ **Data and statistics for program managers**  
Thanks to the many features of the software, program managers have access to data and statistics regarding the use of the program.

## SUPPORT AND EXPERTISE

---

CarpoolingNetwork.com provides its expertise to assist you in the implementation and promotion of the program:

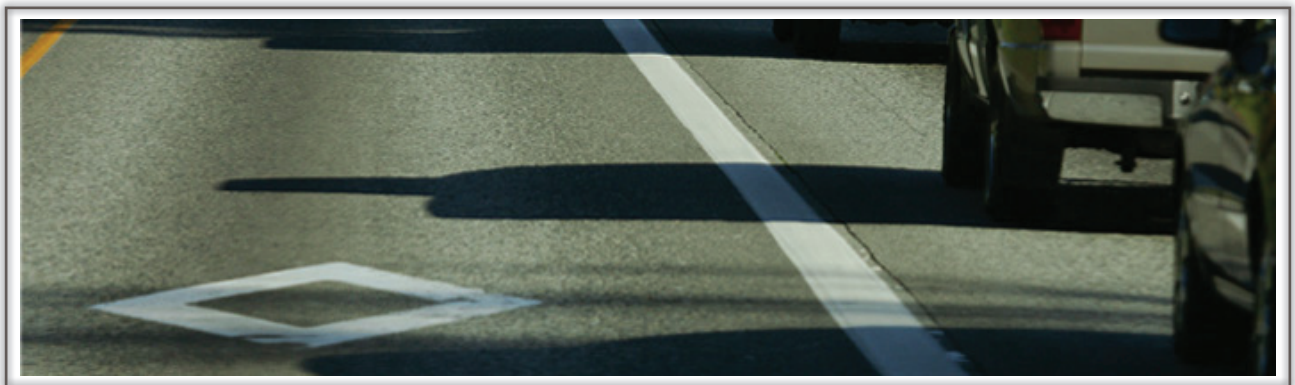

- Personalized implementation plan ;
- Detailed communication plan;
- Development of awareness campaigns;
- Conception of promotional material and various communication tools;
